

Smart EV Buyer's Guide

Page 1: Smart EV Buyer's Checklist

- Real-world range, not brochure claims
- Battery chemistry (LFP or NMC)
LFP = safer, longer life. NMC = more range, faster charging
- Plug type (Type 2 + CCS2 = compatible in India)
- Wallbox charger included?
- Home electrical capacity (32A minimum)
- Battery & vehicle warranty coverage
- Charging infrastructure in your city or route
- OTA updates or app-based controls
- Availability of local service centers or mobile support
- Home charger installation cost

Compare & Choose Your EV Wisely

Page 2: Vehicle Comparison Table + Dealer Notes

Spec / Feature	EV 1	EV 2	EV 3
Model Name			
Real-world range (km)			
Battery size (kWh)			
Battery chemistry			
Fast charge speed (kW)			
0–80% charge time			
Plug type			
On-road price			
Battery warranty (years/km)			

Extra Questions to Ask the Dealer:

- Is wallbox installation included in price?
- Any service plans or roadside assistance?
- Charging credits or freebies offered?
- Software features: regen modes, OTA updates, mobile app?
- Are there any subscriptions for features, connectivity, or software updates?

Your Notes:
